EXPERIENCE

Innovation Developer Intern, Technology & Operations RBC Royal Bank of Canada

📅 July 2020 – August 2020 📍 Toronto, ON

- Full stack software development building an internal retrospective tool allowing Agile teams to reflect on past sprints and collaborate efficiently
- Led a cross-disciplinary team through sprints in the Agile workflow, built solutions and features using React, Express, and Node
- Conducted usability testing, moderated test sessions with users and design teams. Brainstormed and applied new ideas using Design Thinking
- Moderated source control, reviewed, tested, and debugged changes from all other development teams to the new release
- Presented and demonstrated solutions to senior executives

React Node.js TypeScript JavaScript Express

HTTP HTML/CSS Git i18n Windows

Innovation Developer Intern, Technology & Operations RBC Royal Bank of Canada

📅 July 2019 – August 2019 📍 Toronto, ON

- Full stack software development on a talent management internal app
- Built proof-of-concepts and pitched new software features
- Completed tasks in a cross-disciplinary team through the Agile workflow
- Presented and demonstrated solutions to senior executives

Angular Spring Boot Java Maven TypeScript

HTML/CSS SQL Git Bash Unix/Linux

PROJECTS

Practice Bot

Competitive programming utility bot

📅 March 2020 – Ongoing 🔄 kevinjycui/Practice-Bot

- An all-competitive-programming-purpose open source Discord bot, Discord to online judge integration, helps programmers practice
- Developed bot program, configured API connections and MariaDB database, setup AWS instance, moderated open-source contributions
- Currently used by over 250 Discord servers worldwide

Python MariaDB discord.py AWS Bash Linux

Neurologue

Brain powered video game

📅 May 2020 🌐 devpost.com/software/neurologue

- An interactive CYOA web game detecting real-time player brain activity to determine behaviour in-game
- Configured back-end server connection and brain-computer interface integration, front-end game design and structure, made sprites and UI
- Hack the Northeast 2020 submission; Awarded 2nd Best in Gaming, 3rd Most Community Voted

Node.js Phaser.js JavaScript HTML+CSS Emotiv

AWARDS & ACHIEVEMENTS

PicoCTF 2019, 29th Place

29th place on Canadian Scoreboard; Online Cyber-Security Contest hosted by Carnegie Mellon University. Forensics, web exploitation, cryptography, reverse engineering
🔄 kevinjycui/picoCTF-2019-writeup

PennApps 2019, Top 30

Top 30 Award; Hackathon hosted by the University of Pennsylvania
🌐 devpost.com/software/hand-spoken

DMOJ::Modern Online Judge

Various online competitive programming contests and problems regarding algorithm design. I also set problems and contribute to DMOJ open source

Physics Award 2020

High School Physics, highest scoring

SKILLS

Programming Languages

C++ Python Java JavaScript
HTML+CSS Bash C TypeScript
SQL Arduino LaTeX

Frameworks & Databases

React Django Angular MySQL
MariaDB

Development Tools & Environment

Git Unix/Linux Windows Vim
Node.js Visual Studio Unity AWS

Concepts & Practices

Agile Design Thinking

Idiomatic in English, proficient in Mandarin

EDUCATION

McGill University

Candidate for B.Sc. in Computer Science

📅 2020 – Ongoing 📍 Montreal, QC

Relevant courses: Calculus, Computer Science, Linear Algebra, Software Systems

Westmount Collegiate Institute

Ontario Secondary School Diploma

📅 2016 – 2020 📍 Vaughan, ON

Academic Average: 97%
